

OSL Public Service

Announcements

Please ensure your vehicle is road ready. You must regularly check your vehicle for the obvious safety issues, e.g. wiper fluid, tire pressures, light bulbs, indicators etc. You must also take your vehicle to a garage and have a licensed mechanic check out your brakes, your tire treads, and battery etc.

Please view our SEASONAL Public Service Announcements (just a few minutes to watch these video clips could save you a lot of hassle and make your car road safe!). And if you 'boat' please check our Marine Safety clip.
