## Course Description

Instructors with a background in driver training and air brake operation are eligible to take this one week MTO Approved course

(Air Brake 'Z' Endorsement). Hands-on instruction and practice teaching sessions provide students with a thorough understanding of how to both operate and explain an air brake system.

## Course Content

Air brake Z Endorsement instructor training programs involve practical demonstration, instruction & testing on an air brake board and vehicle; i.e. the week is focused upon the workings of the Air Brake system.

## Learning Outcomes

Upon successful completion, graduates will be able to:

- Explain, demonstrate and teach the functions of the air brake system
- Demonstrate air brake adjustment.

## Format

Classroom: formal instruction, workshops and hands-on training

with an air brake board and home preparation each evening.

Field: hands-on demonstration with a vehicle

**(full safety & Covid-19 PPE gear is required).**
